I design interfaces, orchestrate AI, and ship the front end.

Ten years of UX across fintech, insurance, construction logistics and the circular economy: from a DVD menu in 2013 to enterprise eco-systems and AI-built prototypes. I frame the problem, design the system, and build what can be built.

EXPERIENCE · THE REEL

MAY 2024 – NOW

Product Consultant, Unit Lead

SELISE Digital Platforms · remote from France

- Recyclium: led consumer UX for a blockchain-backed circular-economy platform, 0 → 1, five roles, PWA + web dashboards.
- GridOps: designed and built a working utility-management prototype in 8 hours with AI (Figma Make, Stitch, ChatGPT) for a revamp proposal.
- Product costing: turned a one-paragraph brief into five working modules with AI to align the team on requirements.

FEB 2022 – APR 2024

Senior UX Engineer, Unit Lead

SELISE Digital Platforms

- Led UX for a construction-logistics eco-system: LIM (plan), the CLM web app and two mobile apps (build), MoveIt (move in).
- Ran a design unit: critiques, planning, UX audits, presenting direction to senior stakeholders. One design language across five surfaces.

MAR 2016 – JUL 2019

UX Engineer

SELISE Rockin' Software

- Fintech and insurance suite: wealth management, insurance, marketplace, talent portal, audit app, mobile wallet.
- Designed the first version of the construction-logistics system (2019) and an IoT car-exhibition guide.

JUL 2013 – OCT 2014

Designer

Tareque Masud Memorial Trust

- Adam Surat, a film by Tareque Masud: post-production, the interactive DVD menus (my first interface), book design and cover.

SELECTED CASE STUDIES

From plan to move-in
A construction-logistics eco-system: LIM, CLM web + mobile, MoveIt.

Designing a habit
Recyclium: a one-sentence brief became a five-role product.

A pitch in 8 hours
GridOps: a clickable product instead of slides, built with AI.

HOW I WORK

01	**Frame**	research, benchmark, requirements
02	**Generate**	Figma Make, Claude, Stitch
03	**Judge**	compare, validate, cut
04	**Ship**	a prototype, or the front end

SKILLS

Product discovery · UX strategy · information architecture · interaction design · design systems · prototyping · UX audits & heuristics · requirement engineering · leading design teams · AI-assisted design & front end

TOOLS

Figma (Design, Make, FigJam) · Claude · ChatGPT · Google Stitch · GitHub · VS Code · Storybook · Miro · Notion · Illustrator · Photoshop · Premiere · After Effects · DaVinci Resolve

EDUCATION

Master's, Mass Communication and Videography
Rabindra Bharati University, Kolkata · 2019–2021 · ICCR scholarship · A+

BA (Hons), Graphic Design & Multimedia
Shanto-Mariam University of Creative Technology, Dhaka · 2012–2016

LANGUAGES

English · Bangla (native) · French (learning) · German (basics)

ALSO

Documentary filmmaker (The Journey of BOROLINE, TheatreSpace), photographer, graphic designer.

10	**5**	**0 → 1**	**8 h**
years in UX, since 2016	surfaces in one logistics eco-system	products from one-line briefs	from brief to a working AI-built prototype

2006 SSC · 2008 HSC · 2010 Diploma · 2012 BA · 2013 Adam Surat · 2016 SELISE · 2019 Master's · 2022 SELISE again · 2024 France · 2026 Now
